Hi-Tech Sweet Water Technologies Pvt. Ltd. BARDOLI

ABOUT US...

Hi-Tech started importing R.O. based Mineral Water Plants (Domestic, Commercial & Industrial) from USA and selling, installing, maintaining in local market in 1995. This is how we take credit to be pioneer in introducing Reverse Osmosis based water purification systems in India.

An ever growing demand for pure drinking water, quality of our product and prompt After Sales Service took up us to incorporate a Private Limited company. Thus, in 1999 Hi-Tech Sweet Water Technologies Private Limited was formed by a group of Chemical & Mechanical Engineers with more than 23 years of combined experience in the design, consulting & manufacturing of water desalination and purification using Reverse Osmosis technology.

Hi-Tech is the first company dealing with RO systems to be "I.S.O.: 9001:2015, 14001:2015, 18001:2007" certified for its Quality Management System and Product Design, Manufacturing, Installation and After sales Service of Commercial & Industrial R.O. water treatment plants and Domestic R.O. water purifiers by BQC. We are certified by NSIC and have also achieved the NSIC-CRISIL Rating for Highest Performance Capability with Moderate Financial Strength rating SE 1A.

Hi-Tech deals with Domestic, Commercial and Industrial RO Systems. It also manufactures packaged RO systems for ground, bore well, well, river, tap water, Sea Water after ETP & STP Water applications in standard capacities of portable and use for industrial water production. The capacities range anywhere from 8 Liter/hr to 1,00,000 Liter/hr and we are diversified in our approach with single, double and triple tube water filters which come with and without UV attachments as well as softeners and water vending machines in various capacities. If the need be, Hi-Tech can custom design, manufacture and install its systems to meet your specific requirements. We have supplied more than 50,000 industrial plants for various needs such as bottled water manufacturing, soft drink manufacturing, dialysis, hospitals, villages, hostel, schools, colleges, industries, corporate offices, radiators of earth moving equipments etc. and more than 5,00,000 domestic RO plants till date and we strive to maintain state of the art technology and equipment to assist our engineers in the selection and designing of the most effective RO systems according to the type of raw water available to each of our clients.

Corporate Philosophy

"A wish becomes our command". A wish to get healthy and safe water facility becomes Hi-Tech's Command turned goal. At Hi-Tech, production is done with utmost care and precision engineering to get clean water so that society lives a health life.

Mission: Customer satisfaction is all that matters.

Vision: To give the Nation what it needs the most, Clean Water.

Values: Quality, Credibility and Team Work make a great difference.

ACHIEVEMENTS

Best Rural Drinking Water Solutions Provider
2014-2015

2014-2015

2015-2016

2017 - 2018

2018 - 2019

Award Winning
Best Membrane

Hi-Tech has been awarded
consecutively 4th time for
Best RO Membranes Manufacturer

Asian Water Leadership Award
Singapore 2015
For Rural Community Water Project

Asian Water Leadership Award
Dubai 2015
For Best Membrane Technology

WHERE IT WORKS ?

Our Product is Designed for families, offices, institutions and other large capacity applications.

Business Offices,
Apartments & Societies

Packaged Drinking Water
Project with ISI Mark

Pharmaceutical
Industrial

Green Houses

Industrial Water Treatment
ETP & CETP

Our Presence in various Industries...

Kidney Dialysis

Laboratories

Dairy Processing

Bio Engineering

Poultry Farms

Suitable for Application

School/College/Hospital

Solar Cleaning

Food Industries

Swimming Pool

Boiler
